EXPERIENCE

Software Development Engineer

Tranquil Labs Pvt. Ltd.

Nov 2024 – Feb 2025

Remote

EDUCATION

Vellore Institute of Technology, Vellore, Tamil Nadu

Bachelor of Technology in Computer Science

Sep 2021 – Present

*CGPA: 8.38**

Krishna Public School, Patna, Bihar

CBSE (Class XII)

2019 – 2020

Aggregate: 84%

St. Karen's Secondary School, Patna, Bihar

CBSE (Class X)

2017 – 2018

Aggregate: 91%

TECHNICAL SKILLS

Languages: Java, SQL (MySQL), C, C++, Python

Developer Tools/Other Technologies: DSA, OOPS, Canva, ML

ACHIEVEMENTS

- Secured a rank of **523** out of 2 lakh students enrolled in **VIT Entrance Examitnation (VITEEE)**, demonstrating exceptional academic performance.
- Demonstrated exceptional performance by attaining **S grade** in core CSE subjects like **Computer Programming (Python), Structured and OOPS Lab, Computer Networks Lab, Information Security Analysis and Audit Lab, Machine Learning Lab.**
- Attained **IamNEO - Java Full Stack** certification with excellent marks, demonstrating expertise in Java-based backend and frontend development, database management, and full-stack application deployment.
- Successfully completed **C, C++, and Java** at Aztech Solutions Pvt Ltd., reinforcing foundational coding concepts.

PROJECTS

University Recommendation

Python, ML

- Led the development of a University Recommendation System using Machine Learning, analyzing academic profiles, preferences, and goals to suggest suitable universities.
- Implemented data preprocessing and feature extraction techniques, enhancing model accuracy and recommendation relevance.
- Utilized ML models, including decision trees, random forests, and neural networks, achieving high precision in personalized university suggestions.
- Optimized system efficiency, reducing recommendation processing time by 80% while improving user experience with an intuitive interface.

Hotel & Food Management System

Flutter, Java

- Led the development of a Hotel & Food Management System, streamlining hotel and restaurant operations with integrated modules for reservations, front desk management, food services, and CRM.
- Engineered automation solutions using Java, Python, and AWS, enhancing operational efficiency and reducing manual workload by 50%.
- Improved guest experiences with a seamless booking system, optimized order processing, and personalized customer engagement.
